

loyola hacks for greatness ++

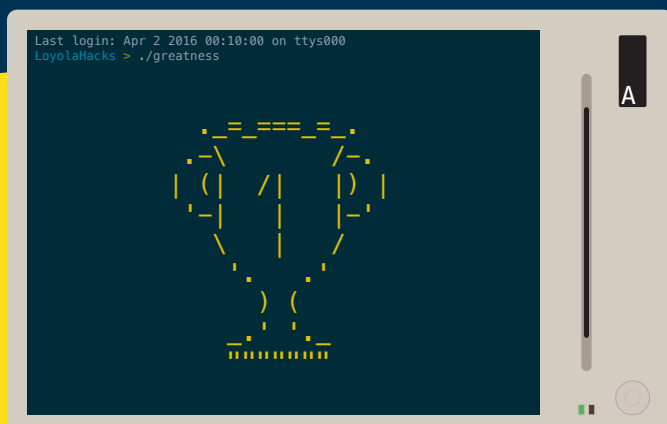

when? April 2nd, 2016 | 10am - 5pm | Cuneo 116 (LSC)

what? Individuals or pairs of programmers come together to solve programming problems to bring Loyola into the Top 50 Universities worldwide on the popular competitive programming site, Kattis. There are problems to tackle, from very simple, to moderately difficult, to incredibly complex. Join the fun as Loyola Hacks for Greatness! Food will be provided.

who? Everyone. Undergraduates, graduates, faculty, and staff. The entire Loyola family is welcome. Very mild programming experience is necessary, we will be solving a sample problem together to help you along!

Let us know you are coming at: loyolahacks.com

Prizes will be awarded, and will be oh-so-nerdy.
Sign up for the event to find out more!
